EDUCATION

University of Maryland (UMD)

College Park, MD, USA

Master of Science in Human-Computer Interaction (HCIM) — GPA 4.0

Aug 2025 – May 2027

- M.S. Thesis (in progress) on passthrough mixed reality; advised by Dr. Ming Lin and Dr. Beth Bonsignore

National University of Singapore (NUS)

Singapore

Bachelor of Engineering in Computer Engineering, Minor in Business Management

Aug 2019 – Jul 2023

- Concentration in Interactive Digital Media; graduated with honors

EXPERIENCE

LIGHT Helmets

Carlsbad, CA (Remote)

3D Scanning & Fitment Software Intern

May – Aug 2026

- Sole developer of an end-to-end Python scan-to-fitment pipeline for two helmet families, turning 3D head and helmet-interior scans into per-station padding recommendations
- Built the companion Android head-scanning app in Kotlin on ARCore's Depth API to capture 3D head geometry
- Directed Claude Code as the coding agent, designing validation gates that block any unverified output

L'Oréal

Singapore

Data Analytics Specialist (Full-Time)

Jul 2023 – Aug 2025

- Built ML-backed promotion-planning tools (Python, SQL, React) from proof-of-concept to production, used by 200+ planners across 10+ APAC markets and contributing to a 24% gain in promotional efficiency
- Iterated on dashboard structure and navigation from usage data and user feedback, lifting adoption by 40%
- Translated stakeholder requirements into shipped UI updates across sprints, negotiating a two-phase rollout that delivered a stopgap before full functionality

SP Digital

Singapore

Full Stack Developer Intern

Jun 2021 – Dec 2021

- Turned UX specs into reusable, production React components for the SP Digital app (1.2M+ downloads)
- Debugged state handling and API request flows in an internal Golang portal, fixing production transaction bugs

PROJECTS

SnaPT — ChatGPT Context-Management Extension

Apr 2026

JavaScript, Chrome Extension APIs

- Built a Chrome extension that keeps long ChatGPT threads responsive, making the page load 2.2× faster
- Reverse-engineered ChatGPT's conversation payload to trim older turns before render while keeping them recoverable, with privacy-first scoping: single-site permissions, local-only storage, no remote code

Aura Desk — AR Workspace in AndroidXR

Jun 2026 – Present

Kotlin, Jetpack XR SDK, Android XR

- Built an AR workspace natively in Kotlin on the pre-release Jetpack XR SDK for unreleased Xreal Project Aura glasses, anchoring Pomodoro, task, calendar, and music widgets to a physical desk
- Integrated on-device AI so the workspace handles natural-language voice requests hands-free and fully offline

Media Framing & Content-Representation Study (UMD)

Jan – May 2026

Python, SBERT, scikit-learn, NLP

- Built an NLP pipeline comparing six representations of 5,388 film plot summaries (genre labels, LDA topics, SBERT embeddings with PCA and K-means, lexicon affect, semantic axes)
- Showed U.S. consumer sentiment doesn't predict box office overall but shifts which stories win: teen-setting films gain when confidence rises ($q = 0.02$), adaptations when it falls ($q < 0.01$)

TrailTogether — Group Hiking Coordination App (UMD)

Jan – May 2026

Figma, User Interviews, Usability Testing, Prototyping

- Designed a 40-screen hi-fi Figma prototype for group hike planning, grounded in 4 user interviews
- Moderated usability tests on two flows, turning findings into a redesign of the request-approval-payment flow

SKILLS

Languages: Python, TypeScript, JavaScript, Kotlin, SQL, Go

AI & ML: PyTorch, scikit-learn, Hugging Face (sentence-transformers), LDA, PCA, K-means, TypeSafe Jev, Vertex AI

Frameworks & Tools: React, Next.js, Jetpack XR SDK, ARCore, pandas, NumPy, Claude Code, Docker

Product & Design: Figma, user interviews, usability testing, A/B testing, prototyping
