EDUCATION

University of Maryland (UMD)

College Park, MD, USA

Master of Science in Human-Computer Interaction (HCIM) — GPA 4.0

Aug 2025 – May 2027

- M.S. Thesis (in progress) on passthrough mixed reality; advised by Dr. Beth Bonsignore and Dr. Ming Lin
- Coursework: UX Research Methods, Fundamentals of HCI, Interaction Design Studio, Data Visualization

National University of Singapore (NUS)

Singapore

Bachelor of Engineering in Computer Engineering, Minor in Business Management

Aug 2019 – Jul 2023

- Concentration in Interactive Digital Media; graduated with honors

EXPERIENCE

LIGHT Helmets

Carlsbad, CA (Remote)

3D Scanning & Fitment Software Intern

May – Aug 2026

- Sole developer of a Python pipeline turning 3D head and helmet scans into per-station padding recommendations
- Designed a reproducible measurement protocol with validation checks and a documented decision log for auditability

L'Oréal

Singapore

Data Analytics Specialist (Full-Time)

Jul 2023 – Aug 2025

- Designed and implemented a suite of ML-driven promotion planning tools used by 200+ planners across 10+ APAC markets, contributing to a 24% improvement in promotional efficiency
- Served as primary liaison between supply chain heads, brand campaign planners, and external vendors, translating their needs into requirements and restructuring analytics views to reduce cognitive overhead
- Defined workflow performance metrics and tracked adoption alongside stakeholder feedback, iterating on dashboard structure and navigation to lift real-time analytics adoption by 40%

Enterprise Architecture Intern

May 2022 – Sep 2022

- Worked with internal analytics users to design Power BI dashboards, cutting time to access insights by 90%
- Restructured internal tool discovery via a Power Platform storefront, improving findability by 50% for 50+ teams

PROJECTS

TrailTogether — Group Hiking Coordination App (UMD)

Jan – May 2026

- Ran end-to-end UX research in a 3-person team, starting with 4 user interviews that surfaced 10 categorized pain points around group coordination, transportation, and tool fragmentation in planning hiking trips
- Planned and moderated a usability study across two user flows on a 40-screen hi-fi prototype, turning findings into a redesign that decoupled the request-approval-payment flow

Media Framing & Content-Representation Study (UMD)

Jan – May 2026

- Tested whether consumer sentiment shifts which films succeed across 5,388 films (1978–2012), comparing six content representations (genre labels, LDA topics, SBERT embeddings, lexicon affect, semantic axes)
- Found no aggregate sentiment effect but significant content-conditional shifts (teen-setting films gained in high-sentiment periods, $q = 0.02$), written up as a full paper

Smartphone Use & Mental Health UX Research Study (UMD)

Aug 2025 – Dec 2025

- Conducted a mixed-methods study of how everyday smartphone use affects emotional regulation, combining a diary study (9 participants, 3 entries/day) with contextual interviews (5 participants)
- Synthesized diary and interview data through affinity diagramming and interpretation sessions, producing personas and journey maps that surfaced behavioral patterns and emotional triggers
- Developed two user regulation profiles and translated them into prioritized design requirements for mindfulness tools

Revamping ShopeePay — Quantitative Study (NUS)

Feb 2023 – Mar 2023

- Designed a 2×3 within-subject experiment comparing two payment-app layouts and three navigation methods
- Analyzed completion time and errors with two-way repeated-measures ANOVA; the revised layout significantly cut completion time ($F(1, 10) = 10.44$, $p = 0.009$)

SKILLS

Qualitative: Interviews, diary studies, usability testing, thematic analysis, affinity mapping, competitive analysis

Quantitative: Survey design, A/B testing, experimental design, t-tests, ANOVA, regression, FDR correction

NLP: Topic modeling (LDA), SBERT embeddings, sentiment analysis, PCA, K-means clustering

Tools: Python (pandas, scikit-learn), SQL, MATLAB, Qualtrics, MTurk, Power BI, Figma
